Bengaluru (Karnataka): The Bharat Electronics Limited (BEL) has taken great initiative to promote start-up firm in defence sector specially focused on security in electronics applications and communication system. The vision of start-up company are very high but how to proceed in the right direction has to be led by experienced hand.

The BEL has organized a national conference for Start-Up company in defence sector and share the future vision and challenges in the sector especially continuous innovation and fast changing life style and strategic relations across the world. The seminar was attended by private as well as govt. enterprises especially doing business in defence area. The contribution of govt. of companies like BEL, BEML, HAL etc. are commendable and helping more venture and start-up companies get benefited of their innovation and ideas.

The seminar being held in Bengaluru is too has special purpose, because the city is IT Hub and environment is extremely good for such investment and business.
